Unleash your motivation

How Motivation >>> Action >>>> Result

"If we have the attitude that it's going to be a great day it usually is." – Catherine Pulsifier

Our world is one of rapid change, complexity and uncertainty. Those who are strong, purposeful and sure in their actions survive and flourish. Motivation gives you the power to be determined, energetic, inspired and in control of your behaviour and your actions. Being motivated means having the desire, inclination and will to meet a result, and the expectation of yourself that you can get there.

Motivation is the reason you act and it is the stimulus you need to take action.

What motivates us is partly set by our own experiences and life events, partly by our physiological and psychological needs, partly by our emotions, partly by our personality traits. Motivation is personal. It's an internal process coming from inside you. It can be prompted by intrinsic or extrinsic factors. Understanding what motivates you offers a way to find solutions to problems you encounter.

As with all things done well, self-awareness plays into our ability to be self-motivated. It helps you live life appreciatively and operate a growth mindset Do you use motivational tools like Pomodoro to help?

How motivated do you feel in these areas of your life right now: Work, Leisure, Finances, Relationships, health, personal growth? You have it within you to find the talents and attributes you need to be motivated in a given situation where those circumstances will meet your needs and desires.

The course covers
